Agenda 9 To consider and approve the issuance and offering of convertible debentures to a specific foreign investor (Private Placement) in the amount not exceeding US Dollar 30 million or an equivalent amount in other currencies.

Before starting Agenda 9, the Chairman noted that the matters in Agenda 9 to Agenda 12 which will be proposed for approval in the Annual General Meeting of Shareholders FY2015 are related to and conditional upon each other. If any agenda item from Agenda 9 to Agenda 12 is not approved by the Annual General Meeting of Shareholders FY2015, it shall be deemed that previous agenda items which were approved by the Annual General Meeting of Shareholders FY2015 be canceled and there shall be no further proposal of other agendas for consideration by the Annual General Meeting of Shareholders FY2015.

The Chairman informed the Meeting that the Board of Directors' meeting no. 3/2015 held on March 6, 2015 has resolved to propose to the Annual General Meeting of Shareholders FY2015 (the "Meeting") to consider and approve the issuance and offering of convertible debentures to a specific foreign investor (Private Placement) i.e. J Trust Asia Pte. Ltd. ("JTA") in the amount not exceeding US Dollar 30 million or an equivalent amount in other currencies. In this regard, details of substantial preliminary information of the convertible debentures are enclosed in Enclosure 4 together with the invitation to this Meeting.

The Chairman declared the information of JTA is that JTA is a subsidiary of J Trust Co. Ltd. (“JT”), a listed company in the Stock Exchange of Tokyo, Japan (“TSE”). JT provides integrated retail financing services and also involves in real estate, amusement and IT businesses, for example. Its market capital in the TSE is approximately US Dollar 1,000 million (approximately Baht 32,500 million). JTA was established in Singapore in October 2013 with JT holding 100% of JTA shares. JTA conducts investment operations and provides management assistance services in South East Asia region.

The Chairman explained about benefits which the Company will earn from this issuance and offering of convertible debentures to JTA that the Board of Directors has considered that, as a reliable company with solid background in the ASEAN market, the investment of JT (through JTA) in the Company will also stimulate the Company’s expansion in the ASEAN market with good source of funding.

In addition, the Board of Directors considered and viewed that the Company should chose to issue and offer convertible debentures, rather than an issuance of debentures or ordinary shares, for the following reasons:

- 1) Greater Flexibility in Financial Management: If investor exercises a conversion right, the Company shall not be required to repay the principal amount. In addition, the issuance and offering of convertible debentures would also broaden the Company’s fundraising options in the future, either by issuance of debentures or convertible debentures, to be suitable for its future investment plan or business expansion;
- 2) Lower, and Non-Instantaneous Dilution Effect: If investor exercises a conversion right, it shall be regarded alike as an increase of share capital by issuing ordinary shares at a higher price than market price as at the date of the issuance and offering of convertible debentures;
- 3) The convertible debentures to be issued by the Company requires no collateral nor guarantor. Thus, it does not incur additional burden on operating assets; and
- 4) The convertible debentures are issued in US Dollar currency and the fund raised from such convertible debentures will be used in foreign countries outside Thailand, especially in Cambodia, where US Dollar currency is acceptable in pursuing business. Thus, this can be considered as a natural hedge of the Company.

Additionally, the Chairman reported about the purposes of this issuance and offering of convertible debentures that the Board of Directors has considered that the issuance of convertible debentures is an alternative of fund raising for bringing the proceeds to be used for the following purposes:

- 1) To support business expansion in ASEAN, especially in Cambodia where the Company has pursued leasing services for personal motorcycles and Kubota vehicles used in agriculture since 2013. The Company obtained exclusivity to act as the agent arranging hire purchase finance for motorcycles branded “Honda” in Cambodia (Honda has more than 80% of the market share with respect to motorcycle market in Cambodia). The Company also entered into a business agreement with Siam Kubota Co., Ltd., a leading manufacturer of agriculture equipment in Cambodia and has commenced to open office(s) in Kubota distribution offices in Cambodia to offer leasing services to the clients; and
- 2) To use as working capital in the Company and/or its subsidiaries to increase financial liquidity and expand business network that can support future Company’s growth, revenue and earnings.

The Chairman informed the Meeting of details of substantial preliminary information of the convertible debentures, details of which are as per details of substantial preliminary information of the convertible debentures as attached in Enclosure 4 together with the invitation to the shareholders, as follows:

Type	Convertible debentures which grant the right to be converted into ordinary shares of the Company, unsecured, and without the representative of the holder of the convertible debentures.

Interest Rate	5% per annum
Transfer Restriction of Convertible Debentures	Any sale or transfer of the convertible debentures shall be made in foreign countries only and in accordance with the applicable regulations imposed by the relevant authorities.

Conversion Price	Baht 10
Conversion Period	From the issuance date and ending on the maturity date, the holder of the convertible debentures is entitled to convert the convertible debentures into ordinary shares of the Company which the holder of the convertible debentures can exercise his conversion right at any last business day of the end of each quarter (being the last business day of March, June, September and December of each year), subject to the terms and conditions of the convertible debentures.

Compensation in Case of Failure by the Company to Provide Shares for the Convertible Debentures	The Company shall compensate only the holders of the convertible debentures who have notified their intention to exercise their conversion rights and to whom the Company is unable to provide sufficient shares to accommodate the exercise of their conversion rights as calculated according to the terms and conditions of the convertible debentures.

Dilution Effects	<p>The impact on the Company's shareholders of the convertible debentures in case the holder of the convertible debentures exercises the right to convert the convertible debentures in full can be described as follows.</p> <p>1) Dilution in shareholdings (Control Dilution) can be calculated with the following equation:</p> $\text{Control Dilution} = (Q_e / (Q_o + Q_e))$ <p>Control Dilution can be illustrated in 2 scenarios:</p> <p>1.1) Control dilution if only convertible debentures are exercised in full.</p> <p>1.2) Control dilution if all existing warrants and convertible debentures are exercised in full (Worst Case Scenario).</p> <p>The control dilution of each scenario is as follows:</p> <p>1.1) Control Dilution if only convertible debentures are exercised in full. Where; Q_o = Number of existing shares which is equivalent to 1,095,770,366 shares. Q_e = Number of reserved shares for the convertible debentures which is equivalent to 100,000,000 shares Control Dilution = 100,000,000 / (1,095,770,366 + 100,000,000) = 8.36%</p> <p>1.2) Control dilution if all existing warrants and convertible debentures are exercised in full (Worst Case Scenario). Given that; Number of existing paid-up shares = 1,095,770,366 shares</p>

Number of reserved shares for GL-WD (ESOP, expired 14th May 2015)
= 11,836,000 shares
Number of reserved shares for GL-W3 (expired 30th Nov. 2015)
= 331,568,252 shares
Number of reserved shares for CD
= 100,000,000

Therefore;

Qo = Number of existing shares which is equivalent to 1,095,770,366 shares.

Qe = Number of shares arising from the exercise of all existing warrants and conversion right of the convertible debentures for whole amount which is equivalent to 11,836,000 + 331,568,252 + 100,000,000 = 443,404,252 shares

Control Dilution = $443,404,252 / (1,095,770,366 + 443,404,252)$
= 28.81%

2) Dilution in share price (Price Dilution) can be calculated with the following equation:

Price Dilution = $(Po - PE) / Po$

where;

PE = $(PoQo + PeQe) / (Qo + Qe)$

Price dilution can be calculated by applying market price on the price determination date (BOD meeting date, 6th March 2015)

a) Assuming only convertible debentures are exercised in full.

Price Dilution = $(Po - PE) / Po$

Where:

PE = $(PoQo + PeQe) / (Qo + Qe)$

Po = Market share price on determination date which is the 15-day average closing price from 12th Feb. – 5th Mar. 2015 = THB 8.46 per share

Pe = Conversion price = THB 10 per share

Qo = Existing number of paid-up shares = 1,095,770,366 shares.

Qe = Number of reserved shares for CD = 100,000,000 shares

Therefore;

PE = $(8.46 \times 1,095,770,366) + (10 \times 100,000,000) / (1,095,770,366 + 100,000,000)$
= 10,270,217,296 / 1,195,770,366
= 8.59

As Po (8.46, market price) is lower than PE (8.59, price after exercising conversion right); therefore, there is no price dilution effect in this case.

b) if all existing warrants and convertible debentures are exercise in full (Worst Case Scenario).

Price Dilution = $(Po - PE) / Po$

Where:

PE = $(PoQo + PeWD*QeWD + PeW3*QeW3 + PeCD*QeCD) / (Qo + QeWD+QeW3+QeCD)$

Po = Market share price on determination date which is the 15-day average closing price from 12th Feb. – 5th Mar. 2015 = THB 8.46 per share

Qo = Existing number of paid-up shares = 1,095,770,366 shares.

PeWD = Exercise price of GL-WD = THB 1.6577 per share

QeWD = Number of reserved shares for WD = 11,836,000 shares

PeW3 = Exercise price of GL-W3 = THB 10 per share

QeW3 = Number of reserved shares for W3 = 331,568,252 shares

PeCD = Conversion price = THB 10 per share

QeCD = Number of reserved shares for CD = 100,000,000 shares

	<p>Therefore; $PE = \frac{(9,270,217,296 + 19,620,537 + 3,315,682,520 + 1,000,000,000)}{(1,095,770,366 + 11,836,000 + 331,568,252 + 100,000,000)}$ $= 13,605,520,354 / 1,539,174,618$ $= 8.84$ <p>As Po (8.46, market price) is lower than PE (8.84, price after exercising warrants and conversion right); therefore, there is no price dilution effect in this case.</p> </p>

The Chairman further reported that in this Agenda 9 the Board of Directors has resolved that the Annual General Meeting of Shareholders FY2015 also consider and approve the granting of the authorization to Chief Executive Officer and/or any person entrusted by Chief Executive Officer to do the following:

- 1) to determine or amend the details, procedures and other conditions related to the issuance and offering of convertible debentures as appropriate, including but not limited to, the terms and conditions of the convertible debentures, issue date, the number of ordinary shares to reserve for the exercise of right of convertible debentures, par value, calculation and payment method of interest, conversion period, redemption, or to determine the adjustment events requiring the Company to issue additional underlying shares to accommodate the exercise of conversion rights, and conditions for the adjustment of conversion rights, provided that such determination or amendment made by Chief Executive Officer and/or any person entrusted by Chief Executive Officer shall be within the scope to be approved by the Annual General Meeting of Shareholders FY2015, especially in relation to the term, interest rate, conversion price and conversion ratio, as provided in the details of substantial preliminary information of the convertible debentures; and
- 2) to enter into negotiations, agreements, execution of, and amendment to agreements, documents, sale report, information disclosure, requests for waiver, reports, applications for approval and necessary evidence required in relation to the issuance and offering of the convertible debentures, as well as to communicate, submit the aforementioned documents for approval, together with the relevant documents and evidence to, and make any arrangement, or contact and/or perform any acts with, the Office of the Securities and Exchange Commission, the Stock Exchange of Thailand, government agencies and/or any other relevant entities concerning the issuance and offering of convertible debentures, the listing of convertible debentures on an overseas stock exchange, and the listing of the newly issued ordinary shares from the exercise of convertible debentures on the Stock Exchange of Thailand, and to have authority to take any other actions which are deemed necessary and appropriate for all of the aforementioned matters.

The Chairman gave opportunity for shareholders to ask questions, which can be summarized as follows,

Question: Why did the Company choose to issue convertible debentures to a foreign investor by way of Private Placement, in which case once such convertible debentures are exercised, other shareholders would not benefit from such exercise? Why the Company did not choose to issue ordinary debentures by way of Private Placement and issue warrant (GL-W4) to shareholders so that shareholders receive equal benefits and what are the benefits for the Company from this issuance of convertible debentures?

Answer: The Chairman responded that reasons of choosing JTA is already specified in the invitation of this Meeting and publicly disclosed. This issuance of convertible debentures is for a foreign investor because the Company operates financing business and require various sources of fund. The Company also aims to expand its business to ASEAN. In Thailand, the Company has raised fund from the shareholders by issuing warrants i.e. GL-W1, GL-W2, and GL-W3 which currently warrant holder can still exercise and loans from the domestic financial institutions. Also, the Company still has additional room for receiving loan from financial institutions in Thailand. However, having source of funds in US Dollar currency has more advantages when doing business in foreign countries. Purpose of issuing these convertible debentures is to use its proceeds in business expansion in Cambodia where customers use US Dollar for sale and purchase of motorcycles; therefore, this is economical in saving currency changing expenses and minimizing risks from currency fluctuation. Additionally, long-term capital structure; for example, securitization in Thailand, is not easy; for this reason, it would be easier for the Company if in future we plan to raise fund by way of securitization in foreign countries. JT is considered a strong business partner with records of successfully raised funds in the amount of US Dollar 1 billion 2 years ago. JT also has 2 banks in Korea and Indonesia, with 62 branches which should be a part of supporting our business. The issuance of convertible debentures is believed to be beneficial to all stakeholders, not only shareholders. This is answer in commercial perspective, if any shareholder wishes to inquire in technical perspective, both legal and financial, the Company has invited professional counsels to answer any of shareholders' questions.

Since there was no additional question, the Chairman proposed the Meeting to consider and approve the issuance and offering of convertible debentures to a specific foreign investor (Private Placement), i.e. J Trust Asia Pte. Ltd. in the amount not exceeding US Dollar 30 million or an equivalent amount in other currencies, details as per abovementioned.

Question: This capital increase is to accommodate the exercise of the convertible debentures which are issued and offered to a foreign investor; therefore, if such foreign investor exercises conversion rights, will this exceeds the Company's foreign limit of 49% or

not? According to the information on the Stock Exchange of Thailand, the Company currently has foreign shareholding of approximately more than 48%.

Answer: Mr. Charin Satchayan, legal counsel from Charin and Associates Company Limited, explained that the Company has taken into account this issue and since the Company has foreign limit stipulated at 49% and the Company currently has foreign shareholding of approximately more than 48%, if JTA exercises its conversion rights, this may exceed the Company's foreign limit. Therefore, the Company has come to an agreement with JTA that it has the right to deliver shares or NVDR to JTA, depending on the remaining foreign room at the time of conversion, and this is already agreed in an early stage.
